

**Confirmation about the Repeated Inspection as Manufacturer
acc. to AD 2000-Merkblatt HP0 in Connection with EN ISO 3834-2**

Company **Tiverton Fabrications Limited**
Tiverton Business Park
Tiverton, Devon EX 16 6TG, United Kingdom

Inspection Basis: Approval acc. to AD 2000 -HP 0 / EN ISO 3834-2

Execution of the Inspection:

At the repeated inspection on 5/11/2013 Mr F. Michiels of TÜV SÜD Industrie Service GmbH ascertained, that the company disposes of the necessary prerequisites as follows:

- facilities permitting manufacturing and inspection in compliance with the current technical standards
- a quality system which guarantees that manufacturing and inspection of the products stated in our report are in conformity with the technical rules and standards
- qualified supervisory and inspection personnel.

/ The welding procedure approval tests compiled in the a.m. report are still valid without changes. / The manufacturing and testing facilities compiled in the a.m. report are unchanged.

- Ms. Jayne Taylor Whitticks (EWT) was appointed responsible welding coordinator; Mr. Martin Huish was appointed his deputy.
- Mr Ken Stockham was appointed testing and inspection supervisor for non-destructive testing, Third Party Technical Inspection Services was appointed his deputy.

Qualified testing institutes are called in for non-destructive examinations. The examination results are evaluated by inspectors of the notified body. RSA

The manufacture of pressure equipment is done according to AD-2000 Merkblatt. Independent to this conformation the procedures appertaining to the accepted contracts have to be observed.

Any changes pertaining to the organization or any modifications concerning the manufacturing, inspection, measuring and test equipment which may affect the quality as well as any changes in the responsible supervisory staff must be communicated in writing to TÜV SÜD Industrie Service GmbH and require the latter's confirmation.

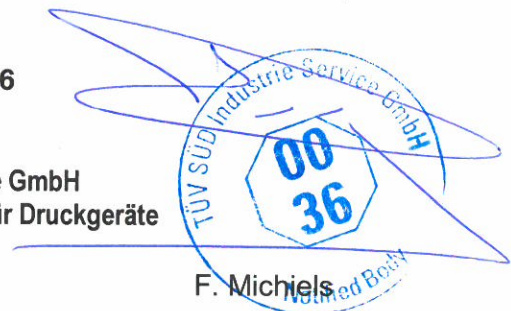

Inspection Results:

After returning the actions taking to the inspection remarks, it is confirmed that the repeated inspections did not reveal deficiencies.

The next repeated inspection is to be done in 1/11/2016

Place, Tiverton
